

## NOTES

The music notes are named from the first seven letters A-G. Each line and each space in the staff represents a note. Here are some great memory tricks to remembering the names of each note.

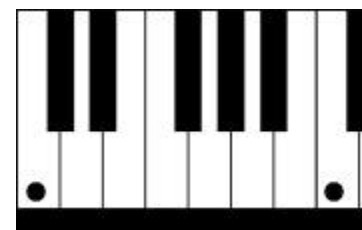

For the treble clef the common mnemonic device is, "Every Good Boy Does Fine" for the lines and "FACE" for the spaces.

Each line and each space correspond to a **white key** on the piano keyboard.

## OCTAVE

An octave represents a scale of eight notes, where the first note and the last note are exactly an octave apart. The significance is the frequency of the pitch of the later is double the frequency of the first. This is commonly taught using the tune "Do Re Mi." Here is a representation of middle C to upper C.

Here is a representation on the keyboard showing one octave.
