

Repeat Sign

Two dots placed before the double bar at the end of a song indicates a repeat. You return to the beginning and play the entire song again.

TIES AND SLURS

A tie joins two notes of the SAME pitch. The note is held for the full value of both but only the first one is played. The second note value just extends the value of the first note.

A slur joins two notes of a DIFFERENT pitch. Each note is played but there is no break between notes creating a legato sound or smoothly.
