

Eighth Notes

We need to add one more note to our arsenal, the eighth note. In standard 4/4 time, it equals a half count. It is noted by a flag when it appears solo or will often appear in pairs. Two eighth notes equal a quarter note.

Eighth Rest

An eighth rest equals a half value of the quarter rest.

LEDGER LINES

Sometimes written music will have short lines above or below the standard staff to extend the range of notes. These short lines are called ledger lines.
